Welcome - Minden Winter Carnival

Chamber Makes \$6,000 Pitch - County Council

The following is a brief in part presented to the County Council of Haliburton by Mr. Ted Campbell, Secretary-Manager of the Chamber of Commerce. It was made on Wednesday, January 20th, 1971.

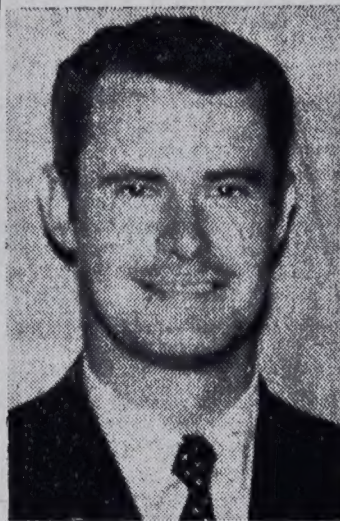

I consider it a pleasure and a privilege to address your representative body as the appointed manager of the Haliburton Highlands Chamber of Commerce on matters pertaining to our mutual obligation, interest, and benefit.

I have been asked by the Board of Directors of the Haliburton Highlands Chamber of Commerce to express to you their gratitude for the spirit of co-operation that has evidenced itself of late.

Personally speaking, I have been here as a permanent citizen for only five and a half months, however, I feel this co-operation has begun to percolate to my office, especially

during the Wardens Banquet, and the trip to Grenville Martin's Mill. In as much as it is a fact that jointly County Council, and the Chamber of Commerce are the only constituted, county wide organizations who can effectively encourage, direct, and control the future development of this county, it therefore behoves us to continue this spirit of co-operation. The Chamber of Commerce is the only provincially recognized body in the county that can effectively encourage and promote the various industries existing in the county, and promote the future development of new industries. While this may not have been the case in the past, it is our aim to promote industry as well as tourism, which admittedly has been our primary function in the past.

Tourism however, remains the number one industry in the county, and thusly requires the

TED CAMPBELL

major portion of our budget and endeavour. The scope of development still to be achieved in our tourist industry is of such magnitude, time would not permit at this meeting to enlarge on it in detail. The Ontario Department of Tourism and Information have stated that they are concerned with the fact that Haliburton County is the only area with a future left in Central Ontario, within easy proximity to our natural market, the Golden Horseshoe, and frankly questioned us as to whether we are taking advantage of the opportunities lying on our doorstep. The Ontario Department of Tourism and Information at present provide your Chamber of Commerce with an annual grant of five thousand dollars (\$5000.00), and will further assist us in a co-operative advertising campaign, in which they will invest up to one dollar for each dollar expended through our office. Other grant incomes to the County of Haliburton grant of three thousand dollars, which commenced two years ago and an additional grant of one hundred and fifty dollars from Anson, Hindon and Minden. This gives a total of eight thousand, one hundred and fifty dollars.

I would ask you to bear this (Continued on Page 4)

The stage is all set for Minden's big caper of the year, the Winter Carnival. Activities get underway tomorrow night, Friday, January 29 and keep rolling right through till Sunday, January 31st.

The Carnival committee, headed by Ed Pettinger, have many committees which have been busy working, arranging, and organizing the many events for this year's big event. They have come up with plenty of new items on the program, which is action packed to give a maximum of entertainment and enjoyment for everyone, at every

We have plenty of snow, and from most reports the weather will be perfect for outdoor fun in this winter wonderland of the Highlands.

There are plenty of programs for you to keep track of the events, they can be obtained from the information booths or the arena. A brief summary of events can be found on page 3 of this issue.

A warm welcome is extended to all our visitors, and it is hoped you have a pleasant time at our Carnival, and enjoy the hospitality of everyone here.

NEW ADDITION OF ARCHIE STOUTER PUBLIC SCHOOL OFFICIALLY OPENED

Mr. Beecher C. Barrett, B.A., B.Ed., Area Superintendent for the Region Eight Office of the Department of Education, officially opened the new addition to the Archie Stout Elementary School in Minden, on Wednesday, January 20, 1971, in the presence of some 300 people.

In his remarks, Mr. Barrett congratulated the Board and its officials for the planning and construction of this addition, which joins the old and the new schools. The addition consists of a large Team Teaching Area and Resource Centre, Science, Music, Industrial Arts and Home Economics Rooms. The architectural firm for the project was Prack and Prack Architects and Engineers, and the construction was carried out by M. J. Finn Construction, Limited, of Peterborough. He then went on to describe many of the innovative practices that are being used in schools today and concluded his talk by giving three home

situations, leaving it to his audience to draw a conclusion as to why some children succeed and the children of other homes fail.

Mr. R. C. Blackwell, B.Sc., M.Ed., brought greetings from the Region 8 Office of the Department of Education, which provides consultative services to the Haliburton County School system. Mr. Glen Hodgson, M.P.P., Mr. James Cooper of the Gideon Society, Mr. J. S. Cauley, of Prack and Prack Architects and Engineers, Mr. J. Horrigan of M. J. Finn Construction, Limited, Mr. L. Salvatori, former Chairman of the Board and Mr. J. D. Hodgson, Director of Education, participated in the evening's program.

Mr. Donald B. Wright, who assumed the principalship of the Minden School in September, 1970, outlined something of his philosophy on how communities and schools should function and pointed out that he was attempting (Continued on Page 2)

"WE SELL THE EARTH AND INSURE IT'S CONTENTS"

HERE AND THERE

with Fenwick Finch

There's one thing about writing a column — when you run out of material you can always throw in a little philosophy, and that's what I'm gonna have to do this week.

About a couple weeks ago I was having coffee with an old school chum — he runs a small business about 20 employees but it's still quite a battle in this day and age.

My friend was slowly burning as he drank his coffee — (incidentally it was only 10c a cup) the incident that had upset him happened around last Xmas. He had given his staff a Christmas bonus and not one of them had come to thank him. Every time he thought of it, he burned a little more and I can see that he is going to go on eating himself unless he looks at things in a little more realistic light. This fellow should have at least another good ten years in his business but, he's well on the way to not making it.

There are two sides to this story of his — he should take a long look at it. Firstly, maybe his staff is underpaid, overworked, they may consider this bonus not a gift but something they have earned. Maybe he was critical and hard to get along with no one dared to approach him. They probably felt his profits were going to taxes anyway so why not give it to them.

Secondly, his staff and employees may be mean, ill-tempered and not too interested in their work. I can't figure it out for him but I told him this, people being what they are it's natural for them to forget to be grateful, and, if we go around expecting gratitude, you're going to be in for a lot of headaches. The foregoing aren't my words but they are part of a philosophy I heard from a man highly skilled in such matters, the late Dale Carnegie. Let me tell you about it — maybe it will help someone. This creed is hard to live by, I know I've tried but a 100% effort to me was almost impossible.

Almost 20 years ago when I was working in Kingston I had occasion to be in Syracuse and, through a mutual friend I had lunch with Mr. Carnegie and this subject came under discussion. According to Mr. Carnegie one of the greatest killers today is worry and it's aftereffects. As I look back now I can well believe him. The effort of trying to get even with our enemies and worrying about no gratitude can surely kill you. To quote Dale, "if selfish people try to takeadvantage of you, cross them off your list, but don't try to get even. When you try to get even, you hurt yourself more than you hurt the other fellow — " to continue he said, " — you don't hurt your enemies by hating them, they couldn't care less, all you do is eat yourself away and in the end you, not your enemies are destroyed." Mr. Carnegie told us a great deal more but that's all the space I can use for this week.

Shakespeare summed it up when he said, "Heat not a furnace for your foe so that it do singe yourself."

A letter to the Editor from J. S. Hampson, Pine Springs, agreeing with the "Laird of Boshkung" about the TV programmes. I'd suggest you'd write to the Stations and put the pressure on — maybe they can serve up something better.

This is the Carnival week-end. I see quite a few "Happy Hylander" buttons have been colored by the owners — they look sharp. Drive carefully, both car and skidoo — you may die happy, but it's tough on those left behind.

Fenwick

NEW ADDITION OF ARCHIE STOUTER PUBLIC SCHOOL OFFICIALLY OPENED

(Continued from Page 1)
ing to develop within the Minden school a spirit of cooperation and mutual respect. He used a recent Barn Raising by a community as an example of good community life. In conclusion, he expressed his thanks for being in the position of Principal of such a fine school.

Mr. Norman Gilmore, Chairman of the Haliburton County Board of Education, acted as chairman for the evening's program. At the conclusion, he invited all present to partake of the refreshments provided by the teaching staff and to feel free to tour the whole school.

ACTIVITIES LINED UP TO RAISE MONEY FOR NEW COMMUNITY CENTRE

On Sunday night January 24th a meeting was held in the Minden Municipal building to determine the many ways and means that the balance of the \$75,000 could be raised for the new Community Centre. Norm Harrison and Richard Parisotto Co-Chaired the meeting of the Highland Recreation Committee that will raise the necessary funds by August 1st.

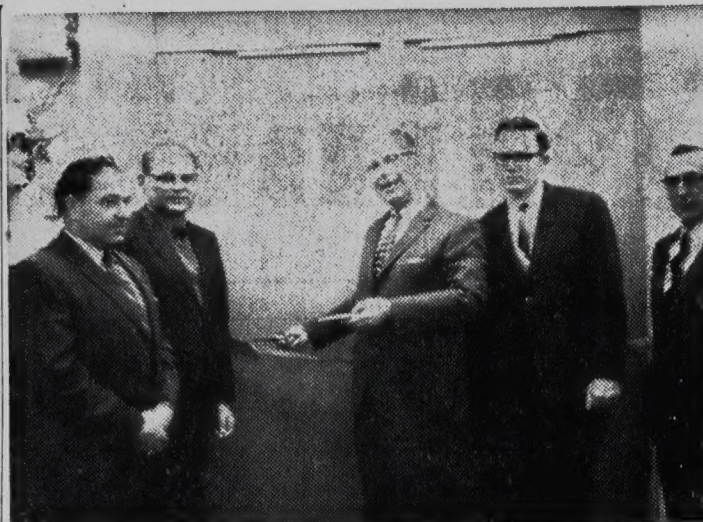

Various Committees were established and the chairmen were committed to organize the many events that will contribute funds. Some of the events will be a family skating party, a draw with numerous prizes, a skidoo safari, a walkathon, card parties, an auction sale, community picnic and a celebration dinner. Even a day or weekend work period will be organized so that the kids may be organized so that they may be involved in the fund raising.

Within the next two weeks the local businessmen will be canvassed to kick off the campaign and shortly after a general blitz of Minden and surrounding communities will take place.

Letters will also be sent to companies from other areas that deal in this community in hopes of raising additional funds.

A recommendation will also be presented to council that any amount over the \$75,000 raised will be used for landscaping and beautifying the surrounding terrain in the area of the centre.

Donations can be sent to Mr. Richard Parisotto, Clerk of Anson, Hindon and Minden.

THE RIBBON IS CUT

Pictured above is the cutting of the ribbon to officially open the new addition on the Archie Stouffer School. Mr. Beecher Barrett, guest speaker for the evening, makes it official, cutting the ribbon. On the left is Mr. Leonard Salvatori, Mr. Douglas Hodgson, Mr. Barrett, Mr. Donald Wright, Principal, Mr. Norman Gilmore, Chairman of the Board.

Pictured above is Mr. Beecher C. Barrett Area Superintendent for the Region Eight Office of the Department of Education, as he gives his speech at the opening of the new addition of the Archie Stouffer Public School here in Minden.

A REVIVAL

Like a shot in the arm or a kick in the pants, Minden is in the midst of a 'Revival'. Now don't say hallelujah, amen, just yet, wait till you find out what kind of a revival it is.

This revival, at least from where I sit, comes from the injection of a host of new faces and personalities into this quaint little community on the shores of the Gull River. With them have come new ideas, and the intense interest to get involved in the affairs of this village. Like a new broom always sweeps a clean path, so does new blood, interest, energy and ideas result in a revival of activities and progress.

You can see this enthusiasm from these new faces in the Kinsmen Club, Rotary Club, Curling Club, Minor Hockey and Figure Skating Associations, yes even the Chamber of Commerce. One other group that has come alive are those interested in a new Community Centre. Two years ago the issue of a new centre was shot down, today it is bubbling with people (many who are new), eager to work together.

The word revival came to mind after I attended one of the fund raising meetings for the new Centre. We were all sitting around discussing how to come up with ways of raising money, when Richard Parisotto, our new clerk, read out the names of people on a certain committee, when he came to one ladies name he said, "and that other lady", not knowing her by name. Only a few minutes later Bill O'Brien, another new face on the growing list, said, "I don't even know everyones name in the room, and have never met some of these people." It was decided to introduce everyone, and as it turned out there were several people who hadn't met one another.

"Lets have a big family picnic, and invite everyone in town, I mean a really big picnic", said Bill O'Brien, "so we can all get acquainted". Everyone agreed that with all the new faces in town, it was a good idea. At the same time it was felt that a buck could be raised at such a picnic held at Rotary Park, for the new Centre — so plans are underway.

This is what I call a revival — it has been twenty years since I last attended a family picnic where the whole town was invited. It sounded like corn to me when the idea was mentioned, but you know, the more I thought of it the more enthused I became. It could be what this new generation needs — a little revival of some old ideas.

The Winter Carnival coming up this weekend is a revival, if you want to call it that. People gather each year to renew old acquaintances and talk to friends. What better way can friendship be expressed than by a celebration and get-together?

We have some interesting new people in town — they are bound to be a great asset to a great community such as we have here in Minden. So hallelujah to you too — grab a little of your personality, your sense of humor, and extend a warm hand shake to all of these new citizens and visitors this weekend — who knows it could turn out to be quite a revival meeting. Amen.

ADDRESS BY TED CAMPBELL TO COUNTY COUNCIL CONTINUED FROM PAGE 1

figure in mind while I draw some comparison between ourselves and our neighbouring competition, who are competing vigorously for our tourists and industrial income.

Huron has 3,052,580 visitors with a dollar income of 39,813,311, they receive \$31,900.00 municipal grant.

Kawartha has 2,285,826 visitors, with an income of 25,749,806 and receive \$8,000.00 in municipal grant.

Muskoka have 1,581,462 visitors with 22,855,523 income and receive \$9,000.00 in municipal grant.

Here in Haliburton we have 517,066 visitors and have an income of 9,258,924 with only a \$3,150.00 municipal grant.

On the basis of the above comparison, we at the Chamber of Commerce are certain that you will agree it is relatively impossible to compete with our neighbouring areas, and compete we must, or our area will continue to be left wanting for the increasing amounts of expendable tourist and industrial dollars. While the Chamber of Commerce appreciates and accepts with gratitude the three thousand dollar annual grant established two years ago, it in no way reflects the return of investment received by this county through the tourist industry, nor does it come near to the amount required for your Chamber of Commerce to effectively continue and enhance our position in the competitive market place.

It is mandatory that we actively up date our image in this market by way of introducing new advertising methods and county identification, as well as to develop advertising of our area into potential markets as yet untouched. It is necessary that we put forth a concerted effort to attract new investment in industrial and resort operations and you can not do this without dollars. We need to establish additional attractions, for example Animal Parks, and Santa's Villages, as well as the further development of existing attractions, such as the "Pot Holes of Harburn", and the "Virgin Pines of Livingstone", and the further preservation of Historic Memorabilia.

Another area of our operation is the further establishment of Information Booths, strategically located throughout the county, and adequate signing for them. It is imperative that we establish additional information Booths at the earliest possible time in such places as Dorset, Carnarvon, Wilberforce, Gooderham and at the border next to Kinmount. We would like to commend the Township of Cardiff, and Dysart for the establishments that they have set up. Your Chamber of Commerce has endeavoured to assist in

every way possible with the dissemination of information to these offices. In addition to the new information centres, there should also be appropriate signing of a "billboard Nature" at the entrances to this county, especially at the Southern Highway 35 entrance.

Another area requiring time, effort, and cost is a program to assist in relieving existing pollution conditions as well as avoiding future pollution prone installations. As you are all aware, without our clean water, we do not have any business. We must act now to preserve this liquid gold. Every businessman must get behind the fight for clean water. Every township must pass stiff by-laws to close the present gaps. Every Public Health Officer should enforce, to the limit of his authority, and without question, the various water acts he has at hand.

There is no need for backbiting once the damage has been done. It is too late. Within one hour the newswires are alive spreading the word. Usually it is blown far out of proportion, but the damage has been done. No amount of good publicity will compensate for the original story. The Reeve of Anson, Hindon and Minden, your Chamber President and myself were invited, accepted and attended the Haliburton Property Owners Association meeting in Toronto last November 25th. This Association is comprised of 28 member associations and fairly represents the cottage owners of Haliburton County. We were well received and certainly impressed with their concern regarding pollution and future development within the county. They have obviously taken a stand against contributing to pollution and have gone so far as to establish a self policing type of inspection of the cottages in their respective areas. The Chamber of Commerce highly commends them for this action and assures them we will help in this endeavour in any way possible. Let us also endorse the adoption of a similar attitude and exercise by our year round residents, and governmental bodies.

In most progressive areas of our nation the Chamber of Commerce, sometimes known as the Board of Trade, is respected and regarded as "A Powerful Influence For Good" and it is not the intention of the Haliburton Highland Chamber of Commerce to take a back seat in the application of their obligation to the county in the future. With a modest change to the constitution of the Chamber of Commerce and with the approval of the County Council, your Chamber of Commerce will appoint two members of County Council to the Executive Committee as

Voting Directors of the Haliburton Highlands Chamber of Commerce. Kindly accept this proposal as confirmation of our regard for the time and effort expended by the two County Council appointees this past year, namely Mr. Lock and Mr. McGillivray. In anticipation of the County Councils' increasing financial obligation to the Chamber of Commerce the Chamber would welcome the two appointed official representatives as additions to our executive board.

With respect to the foregoing we would ask the question; where could the County Council hope to hire the services of a full time person to represent the County of Haliburton, who will hold himself out on a professional basis to promote, develop, encourage, administer, and be the catalyst of the progress that should and must take place in the County; not to mention having the benefit of a sixteen member Advisory Board comprised of business people from throughout the county? This is provided for the county, by the Chamber of Commerce at a cost of only three thousand dollars annually at present.

In view of our increasing obligation to the county, the administration has increased over the past year and one half and the need to maintain the Administration Office open, has created expenses far beyond what was previously the case. In addition the Minden Information Office accommodation is inadequate for the purpose of administration and relaying of information, we therefore would ask the County Council to approve, for the use by the Chamber and myself as Manager of the County Chamber of Commerce, an Office for Administrative purposes in the soon to be vacated County Building without cost to the Chamber. It is our feeling that this facility would enhance the county wide nature of our operation, by placing the Manager in the County Building, and tend to lessen strong feelings of geographical location presently experienced throughout the county, especially in the North and North East.

This would also assist in alleviating certain costs in operating the Minden Information Booth could then be opened for special occasions in the off season, and of course staffed in the usual manner during the summer period.

We respectfully request your County Council approve a grant to the Haliburton Highlands Chamber of Commerce for the year 1971, in the amount of six thousand dollars. This is a minimum figure, in view of the work to be done.

I thank you gentlemen again for your time and consideration.

LETTERS TO THE EDITOR

19 Carnwath Cr. outside — telling us that the families inside must laugh and have fun together.

Dear Mr. Greir

A visit to Minden is a delightful experience, especially for one from the city.

Meeting friendly people in restaurants and stores.

Tracing the Gull river where it flows and cuts a path through your town.

Viewing the neat colourful homes with snowmobiles parked

Your school and the new addition spells out progress thinking and the awareness of the place education holds in your community.

Crowning it all, up on the hill, the beautiful bright Senior Citizens' residence.

Congratulations to all!

I like your town.

Evelyn M. Raynor

MOLSON DONATES TROPHY

Pictured above is Don Gartshore Chairman of the Minden Winter Carnival Broomball Tournament holding the new Molson Trophy to be won by the Broomball Tournament winners. Molson Brewery Company were kind enough to donate this beautiful trophy which will go up for grabs annually.

Don has done a terrific job each year with this tournament for the Carnival Committee and can be congratulated.

MINDEN MINOR HOCKEY NEWS

In Midget play on Friday night Bobcaygeon edged the locals 3 to 1, in a close checking game that could have gone either way. Warren Payne fired the lone goal for Minden after taking a pass from Bill Jackson.

In Pee Wee action the locals continue to struggle, looking for their first win of the season. On Friday night they took a 9 to 0 upset at the hands of Bobcaygeon.

The Novice 'B' team dropped a close 2 to 0 decision to Kinmount on Saturday, but have a good enough record to make the playoffs.

The Bantams also dropped their game on Saturday to Bobcaygeon 5 to 2. Kirk Hewitt scored both goals for the locals. A week ago Wednesday the Bantams were beaten 8 to 2 by Bobcaygeon here in Minden. Allan Trepanier and Doug Ray were the scorers for Minden.

The Novice 'A' team, the Progress Newsies gave a good account of themselves on Sunday afternoon, defeating Little Britain 3 to 1. This win gave them a two point lead over Sunderland, who they are fighting with for sixth and last playoff spot. Tom Palmer scored Mindens first goal, and Paul McKenzie came back to score the next two. Brian Shaw and Corey Walker assisted.

Brandon's Mites dropped a close 3 to 2 game with Kinmount on Saturday. Ted Brandon and Harold Porter were the goal scorers for Minden.

DECLARATION OF INDEPENDENCE

As a local businessman I want to tell you about my Independent Insurance Agency . . . you might call it a "Declaration of Independence". As a trained specialist in general insurance I have chosen to live here and serve my customers in the best way I know. To provide a wide range of service I place your insurance with the companies which can best suit your needs. Not just one company. After

all, your insurance and the valuables it is designed to protect are very special to you. I understand local conditions and am able to deal with insurance on homes, contents, cars, boats, cottages, for fire, burglary, and a variety of other perils which may involve your valuable possessions. Give me a call and I'll show you what I mean about an Independent Insurance agent.

THE NATION'S BUSINESS

by William Scott M.P.

In one of my columns a few months ago, I mentioned that this country could provide adequately for all of its people if only our resources were managed properly. I pointed out that we have all we need in resources and productive capability to provide jobs for our workers, and to provide for the elderly and those who cannot work because of illness or disability.

The latest figures on unemployment across Canada, released a few days ago, bear mute testimony to my earlier statements. This country is being managed so badly that unemployment has now risen to more than half a million jobless persons, while, at the same time, we're pouring millions of dollars into relatively unimportant foreign and domestic programmes.

Both Prime Minister Trudeau and Finance Minister Benson said on several occasions last year that they were prepared to accept a higher than normal rate of unemployment in order to cure inflation. They seemed to believe, and that fact has been proven, that the only way that inflation could be beaten was to create massive unemployment. The wisdom of such a philosophy has failed to impress anyone except the Trudeau Cabinet, but, since the Liberals have an absolute majority there is little that anyone can do to reverse this trend. Benson set out to decelerate the rate of growth of the Canadian economy and to create unemployment. He succeeded on both points.

There is no way that a declin-

ing economy can create employment. In fact, the reverse is true. Only a healthy, growing and active economy can create new jobs, and preserve the jobs that already exist. In addition to not creating new jobs for people entering the labour market from the nation's schools, the Trudeau - Benson formula has pulled the rug out from under hundreds of thousands of existing jobs.

The real danger signal in the latest unemployment figures is the realization that the figures are for the month of December and the time of year when unemployment is traditionally at its peak is still ahead of us, in January and February. Considering that we are in the worst financial slump we have experienced in modern times, the prospect for the coming months is cause for great alarm. Right now the situation is serious — in February we may well be in a crisis situation.

Last month, in apparent desperation, the Federal Government announced that it had appropriated \$150 million for programmes designed to stimulate the job market, more than half of which was designated for Quebec. The rest was parcelled out to the other 9 provinces. But, even that will not help those who need jobs now. The programmes that will be financed by the crash fund will not become effective until late this year if they become effective at all.

Opposition Leader Robert Stanfield has been urging the government to stimulate the national

economy as a first step, to reverse the present practice of holding back the economy, in order to stimulate purchasing and manufacturing, and thereby create new jobs. This the Government steadfastly refuses to do, and unemployment continues to climb. Mr. Stanfield has urged the government to reduce taxes where they are proving to be too restrictive, to remove the "temporary" surtax on income and to remove the 11 per cent tax on building materials to stimulate construction of homes and factories. Again the Government scoffs and refuses to recognize the fallacies in its economic policies.

The Prime Minister announced recently that inflation has been licked. Hard on the heels of this claim came an announcement from Air Canada that it was laying off 415 employees because of loss of passengers and on "inflationary pressures". It matters little whether the Prime Minister is right, or whether Air Canada is right. The cold, hard fact is that we are fast approaching an economic crisis in Canada. While the Prime Minister beams and says that inflation is licked, the Dominion Bureau of Statistics release figures showing another 100,000 people have lost their jobs. It is time for the Government to stop trying to place the blame for this financial crisis on inflation or on other abstract causes and begin to institute sound management practices. We have the resources and the know-how to eliminate joblessness and poverty, but those resources are not a magic formula — they have to be managed!

THE ANNUAL MEETING

Of

OBITUARY

JESSIE ISABEL HAMILTON

There passed away, a long time resident of Snowdon Township on January 11 at London Nursing Home, Jessie Isabel Donnelly the wife of the late William Hamilton in her 92nd year.

She was born in Gelert in 1879 a daughter of the late Mr. and Mrs. A. Donnelly and married William Hamilton in 1900 and lived on the Hamilton Homestead at South Lake until 1949.

She leaves to mourn her loss one daughter, Donna, two foster daughters Lillian (Mrs. Victor Martin) of Minden and Doreen (Mrs. Don Hodgson) of Oshawa and two brothers Walter of Saskatchewan, Charles of New York and a sister Aggie. (Mrs. Berry of Saskatchewan).

She was well known as mid-wife in the area and was a fine neighbour in time of trouble.

**JANUARY MEETING OF
 MINDEN W. I.**

The first meeting of the new year for Minden Womens' Institute was at the Parish Hall on January 20th with Mrs. P. Clarke presiding.

After the usual opening and reports were given, the correspondence was read.

A card party is planned for February 10 at Hyland Crest Auditorium with members offering lunch and posters. It was decided to make a Friendship Quilt with committee being Mrs. Sears, Mrs. Arnold Coulter, Miss C. Jones, Mrs. Harry Welch and Mrs. W. Moore.

Mrs. B. J. Walker then gave her summary of the Current Events for the past year in her amusing way and this will be placed in the Tweedsmuir History.

Mrs. Sears read a clipping on Canadian poetess Edna Jaques who just celebrated her birthday and also a poem Prayer for the New Year.

The meeting closed with God Save the Queen and W.I. Grace and all enjoyed the delicious lunch served by the committee.

ABOUT THE TOWN

With Jeanne Sears

We note that Great Britain and Saint Helena have now changed over to the decimal unit in their money. Who would have thought three shillings and nine pence would be just nineteen cents.

Sincere sympathy of the community to the family and friends of the late Bert Walker whose funeral was last Wednesday.

There was an impressive crowd present on Wednesday evening for the Official Opening and Tour of the new wing of the Archie Stouffer Public School.

Another couple are away enjoying a months holiday in sunny south, Ev and Loyne Cox left last week for Miami, Florida.

Very soon we will be using a new issue of postage stamps in honour of the late Peierre La Porte — they were to have been in honour of his 50th birthday.

Bert Coulter who has spent several months at his home here, has returned to Saint Paris, Ohio. He spent last week on a fishing trip to North Bay and Carney visiting his two nieces, Mrs. Keith Howe of North Bay and Mrs. Allan Hawthorne of Carney. He brought home a nice catch of fish.

Patients at the local hospital on Monday included Mrs. Jean Taylor, Mrs. Elsie Harrison, Mrs. Gladys Water, Mrs. Lillian Miller, Mrs. Sharon Kernohan and new baby girl, Wendy Buchanan, Charles Webb, and James Anderson. We are pleased to report that Len Lonsberry is making fine progress and is going to Toronto to a specialist for further tests.

A busy place last Thursday morning and afternoon was St. Paul's Parish Hall when many from the area had chest X-rays and needles at a T.B. Clinic.

Monday was Bobbie Burns birthday and we heard it is a holiday in Newfoundland. Many from Scotland would enjoy hearing all the Scottish music played all that day.

Senior Citizens at the Hyland Crest enjoying birthdays this month were Eldridge Hagar, William Cooper, Margaret Otto, Annie Avison, Florence Hewitt, Robert Schroter, and Anna Walton.

Hint of the week — Easy way to carry sand for icy roads is in dry empty 2 quart milk cartons, also has a handy pouring spout. Also easy to get at if kept in back seat of the car.

The United Church afternoon Bowling League had a Bowling Party last Friday with winners in the afternoon Ruby Francis, Sharon Sisson, Gordon Kellett and Jim Green; in the evening winners were Hettie Green, Gladys Peacock, Jim Green and Frank Raycroft. Winner of over 225 were Carol Graham and Norm Graham.

No real thaw as yet so the snow is still here and more coming so drive carefully.

Cherrio until next week.

BOWES & COCKS LIMITED

BUILDING LOTS — Seven one acre building lots overlooking Buckslides with roadway frontages of 150'. Nicely treed — priced at \$1,700 to \$1,850 each.

Three lovely lots, nicely treed, with 4 to 5 acres in each, 2 miles from Minden priced at \$1,700 each. For further information call Al Hodgins at Minden 286-2831 or 286-1575.

Ski-Doo Retreat — Close to Minden on year 'round road — 50 Acres of rolling land, some bush with two winterized cottages — 1 completely furnished. Good hunting and ski-dooing. Priced at \$10,900.00. Call Marjorie Young, Minden 286-2381 or 286-1584.

FACTS ABOUT DEER YOU SHOULD KNOW

by A. J. Stewart

Wildlife Biologist

Deer survive the snow and cold for winter by moving into the protective shelter of swamps and thickets called "deer yards". These yards are scattered about the country and for reasons not yet fully understood the deer return to the same yards year after year. A couple of well known yards in this area are the Nogies Creek Deer Yard and the Peterborough Crown Game Preserve. The Crown Game Preserve was recognized as a yarding area even before it was made into a sanctuary. Every winter deer move into these specific yarding areas.

Like all animals deer have to eat and during the winter they feed on the twigs and buds of certain specific types of trees. For instance, they like maple buds and cedar but they don't like alder or spruce. A healthy deer needs about four pounds or roughly a bushel basket of twigs and buds per day. During an average winter a deer may spend about 90 days in a yarding area. Therefore, one deer requires about 90 bushels of twigs and buds to get through the winter in good shape. We must also remember that the food growing in the winter yard must be within reach of the deer.

A trophy buck may look 10 feet tall to a shaky hunter clutching a rifle, but the fact is that deer are not really very big. A mature buck stands waist high to the average man and by rearing upon his hind legs he can reach a little higher than your head. Therefore, any food growing more than seven feet off the ground might as well be on the moon as far as the deer are concerned.

Therefore, to sum up, deer rely for winter food on certain plants growing in specific wintering areas within seven feet of the ground. Many hunters do not realize it, but the number of deer they see in the hunting season may be directly related to the amount of food available in a cedar swamp miles away where the deer spent the previous winter.

There are several yarding areas in the Peterborough area and one of the major ones is the Game Preserve. In this area much of the food has grown above seven feet. As a result the deer spending the winter there do not have as much food as they did then years ago. As food decreases, so do the deer. Many people do not believe deer are lacking food unless they actually see a dead or starving animal. But a lack of food can show up in many different ways. A doe may have only one fawn instead of twins, or no fawns at all. The average weight of the deer may go down or bucks may not grow as big a set of antlers as usual.

LETTERS TO THE EDITOR

January 22, 1971

Dear Fenwick

I and a lot more people in this area agree heartily with "Jim Elder" on this CKVR, Channel 3 drabble we have to put up with. Re-run movies, debates, and other junk we are sure not interested in, I say we need a better and possibly more up to date T.V. Station or a more variety of programs and I don't mean speeches, student, Government or otherwise.

Give us a break CKVR.
J. S. Hampson
Pine Springs

HANDLING VACUUM PACKAGED MEATS

Vacuum packaging is the latest advance in meat packing technology. It has extended the shelf life of meats and reduced the danger of contamination, since less handling is required. Products such as frankfurters, bologna and salami are available now in vacuum packages. In the future fresh meat cuts may be marketed this way. Vacuum packaged meats must be refrigerated at all times, in the store and at home.

Vacuum packaging does not extend shelf life indefinitely but an unopened package will keep safely for 10 to 14 days under refrigeration temperatures of 32 to 40 degrees. Once the package is opened, however, the meat should be used immediately, say home economists at the Ontario Department of Agriculture and Food.

Freezing of vacuum packaged meats is recommended only for a very short time as cured meats tend to develop off-flavors during freezing.

Most manufacturers code-date packages to ensure that the proper stock rotation takes place at the retail level. At the present, code-dating systems are not uniform, but pressure is mounting in the industry for a uniform system to eliminate confusion for the retailer and the consumer.

DOLLARS AND GOOD SENSE

by William J. Martin

This column is a regular feature prepared by the Family Financial Counseling Service of the Avco Delta Corp., P.O. Box 2820, London, Ontario. All questions submitted to the above address will be answered in print or by mail. Names will not be used in print. However, all questions should be accompanied by a complete name and address.

SSSS

Dear Mr. Martin:

My automobile insurance agent just told me that my new premium was going to be nearly 50 per cent higher than my current policy, even though I'm a safe driver with no accidents or tickets. He said the reason for the increase was based on increased auto repair bills and how easy it is to cause major damage to cars. He said rates would go down if cars were designed better. Is this true, and if it is, what can be done to make this happen?

G. K.

Dear G. K.

Yes, it's true that today's cars are not able to withstand even minor collisions without sustaining major damage or repair bills. This has been forcing insurance rates up — but help is on the way.

Look for less fragile cars in

the near future and cheaper automobile parts and big changes in collision and liability insurance premiums.

Studies have already been made on the vulnerability of different cars. In one test, a dozen 1970 model cars were driven into a wall at five miles per hour. Damage ranged from \$120 to over \$300. In one 15 MPH test crash, more than \$1,000 in damage was caused.

A bill has already been introduced in Congress that would tie premium rates to repair bills and require that insurance rates be published so U.S. motorists could consider insurance costs when deciding on an automobile purchase.

These actions have put pressure on Detroit to produce a sturdier and less powerful brand of cars and to reduce the cost of parts.

Another study found that it cost more than \$15,000 in parts and labor to assemble a car that had a list price of \$3,500. Some manufacturers have already begun to lower their prices on certain parts.

You may lend your voice to the cause by letting your insurance company and the automobile manufacturers know how you feel.

MASSEY-FERGUSON RED NITES TO PERFORM HERE

Pictured here are the crack Massey-Ferguson Red Nite Snowmobile Demonstration Team — a highly skilled and experienced six man team, that has thrilled audiences throughout Ontario with their precision handling, jumps and formation manoeuvres. The team, composed of members of the Company's Toronto Branch, has been picked for performances at winter carnivals, snowmobile meets, races and other winter events for the 1971 season. Check your Minden Winter Carnival Program, for times when the Red Nites will perform.

KINMOUNT BANTAMS BEAT

HALIBURTON 7 TO 0

On the hockey front in Kinmount the Bantams continued with good success over the last week splitting games with Haliburton and Bobcaygeon.

On January 19 the Kinmount Club whipped Haliburton 7 to 0 on 3 goals by Stephen Austin, 2 from Brent Handley and 1 from Larry Silvers and Lee Swanton.

On Thursday, January 21 Bobcaygeon edged Kinmount 3 to 1. Scoring for Kinmount was Wilkinson with the lone tally.

Glenn Gould is much more likely to be seen at a radio studio's audio console than at a keyboard these days. His latest venture into sound is Stokowski: A Portrait for Radio by Glenn Gould, to be unveiled February 2 on CBC Tuesday Night. Leopold Stokowski, aged 88, is both subject and narrator; his voice is heard, with music conducted by the maestro forming a background and illustration to his thoughts and reflections. Stokowski, in the words of Gould "is an extraordinary and extraordinarily moving personality and I hope that something of his remarkable kindness and generosity of spirit as well as his relentless dedication to art comes through in this program". With Gould at the controls, there is no doubt that it will.

The Apollo XIV Moon Mission is scheduled to blast off from Cape Kennedy at 3:23 p.m. Sunday, January 31. Aboard will be Captain Alan B. Shepard, the first man in space. Major Stuart A. Roosa, and Commander Edgar D. Mitchell. CBC Radio will follow the course of Apollo XIV on its ten-day flight, staying on air all night, February 4 and 5, for the first and second moon walks. Commentators will be George Rich, and space specialist Prof. Stanley Townsend of the Institute for Aerospace Studies, U. of T.

Sir Alan P. Herbert, who contributed to Punch magazine for many years, was a great crusader for reform of absurd British laws, especially those involving divorce. Several of the misleading cases he wrote up in his hilariously satirical way were collected and published under the title, Uncommon Law. On February 1, 2 and 3, three cases from this collection will be dramatized on Theatre 10:30. On February 4 and 5, there'll be a concentration of Herbert's writings about divorce action from his book, Holy Deadlock. Writer-actor Alan King, who's long had an interest in the law, has prepared and directed these five programs.
